

A NEW ERA FOR COLOUR MATCHING

SPEED UP WORKFLOWS WITH THE NEW CHROMAVISION® PRO MINI

The innovative ChromaVision Pro Mini, measures not only colour but also effect and, with an extensive global colour formula database, gives you more accurate results than ever. Its Wi-Fi connectivity means you can transfer data to the ChromaWeb™ software instantly. So you get results faster too. Smaller and lighter than other devices, it's also incredibly easy to use. In short, it's our most highly evolved spectrophotometer with full mobile digital colour retrieval.
