

ULTRA PERFORMANCE ENERGY SYSTEM ULTRA HIGH QUALITY

"THAT'S ULTRA HIGH GLOSS!"

AN AXALTA COATING SYSTEMS BRAND

TOP QUALITY FROM START TO FINISH

Although the Ultra Performance Energy System is the fastest on the market and requires the lowest energy consumption, there is no compromise when it comes to quality. Innovative Axalta technology also makes it easy to use and highly versatile too.

ULTRA PERFORMANCE ENERGY SYSTEM

- 01 OUTSTANDING TOPCOAT APPEARANCE**
Ultra Performance Energy System products are characterised by an unbeatable set of features: simple and safe processing, an even finish, very smooth surface and outstanding topcoat holdout.
- 02 SUPERIOR SURFACER PERFORMANCE**
The special formulation of both the sanding and non-sanding surfacers gives you high stability even on vertical surfaces. So it's easy to handle and fast to apply. The special chemistry produces an even, smooth surface which ensures a first class topcoat layer.
- 03 PRECISE COLOUR MATCHING**
Cromax Pro Basecoat is a favourite with bodyshops thanks to its one-step processing, excellent coverage and exact colour match.
- 04 TOP CURING PROPERTIES PLUS HIGH GLOSS FINISH**
The CC6700 Ultra Performance Energy Clear dries extremely quickly in 10-15 minutes at 40°C and also cures very well. In addition, it gives a superb finish with mirror gloss shine.
